The London Spectator recently suggested that America be assigned all f the German colonies she will take. But the Spectator should be reminded that this country already has a few troubles of its own-and is not a hog.

It is probable that when, on July 16. Foch ordered a concerted allied blow struck, he had little idea that in a little better than three months, German missioners would se in his lines begging for peace.

over prohibition similar to that in Settlement are too mousentous and too Oklahoma over suffrage. The "dry" vital to be held up by somebody's petty amendment has carried, but it is not political ambittion. The peace treaty t known whether it has received a majority of all the votes cast.

If there should appear a note of ourness in the president's Thanksgiving proclamation, Mr. Hoover has already generously anticipated the emer-gency with an extra allowance of As the Ledger insinuates, when peace is established, we shall proba-

LAST SCENES OF WAR DRAMA.

Unless the German acceptance of the allies' armistice terms is communicated by wireless to the commissioners, who are domiciled now near Compeigne, it is unlikely the German courier who passed back through the lines to the enemy headquarters at Spa, in Bel-gium, will be able to return much in advance of the expiration of the seventy-two hours' time limit, which is 11 o'clock Monday morning, Paris time, or 5 o'clock our time.

The closing scenes of the great war drama are at hand, however. The kaiser is said to be at the watering place, with all his general staff and Prince Maximilian, Dr. Solf and controlling committees of the reichstag.

We may gather some conception of the severity of the terms imposed on the Hun by the fact that State Secretary Erzberger and his compatriots found it necessary to refer them back to his superiors. Generalissimo Foch stated that the German commission was clothed with authority to accept or reject. But when they heard them read they would not take such a responsibility before their na-tion. It is said they showed surprise at the terms and argued some of the minor points.

What will the kaiser do? There seems little question that he appears for the last time on the great political stage. Not many miles from where he must consent to his own political immolation is the little house at Sedan where, in 1870, Bismarck met the humbled Na. poleon III. and received the surrender of his great army. Americans yesterday captured that historic city, and today the allied lines everywhere are moving forward.

But, although constant defeat is weakening the German resistance at the front, the situation is by no means so perilous as that along the interior lines. Every day is reported another catastrophe for the war lords. "Soldiers' and sailors' councils," words ominously like those used in Russia, have taken over most of the fleet. A republic has been formed in Bavaria. This probably is the first step of the south Germans to leave the league with Prussia. There are other states outside of Prussia which will probably accept the opportunity of resuming absolute independence. Schleswig-Holstein will rejoin Denmark. Hamburg is in the throes of revolution. Then there are Hanover, for long years bitter against Prussia; Saxony, Wurttemburg, Hesse and others.

Just as in Russia, the breaking of the power of autocracy leads to an extreme of decentralization. Some day, no doubt, the German empire will be reconstructed-in a day when the sword has truly been forged into a plowshare. The league of nations will make more likely the reconstitution of the states which were great before the war.

In the railroad car where Foch received the German commissioners was an admiral of the American navy. Gerard has testified that the German frightfulness party did not believe that America could be goaded into the war, or that we could fight once we en-tered. So the fatal decision of Jan. 80, 1917. Admiral Sims beside the figure of Foch was the answer.

We are not a military nation. Thomas Jefferson said he was opposed to a single "unnecessary soldier." But if the war lords had not been blind to all history, they would have known that whenever America had to take up arms it did not shirk the duty, and wielded them with the skill of nations which were constantly under the burden of a military armament.

The militia, which Ludendorff affected to despise, has just taken Sedan from the Prussian guard. England's "contemptibles" are sweeping over Belgium, and France, "bled white," in the German view, through its heroic commander receives the surrender of the grandson of William I., the conqueror, crowned at Versailles.

It is to be hoped these lessons have sunk deep into the German consciousness. If so, we may look ahead to a program of world peace in accordance with the ideals of Woodrow Wilson.

TWO GREAT MOVEMENTS.

We first endure, then pity, then emorace. That about describes the proof the prohibition issue. long, its advocates were regarded as their numbers slowly increased, there was a more or less prevalent imprescasion to endow a home for indigent sion that they might find much more useful and practical employment. But they kept at it, though their victories were few and far between. Finally, a respectable portion of the people concluded that there must be something in a proposition which was urged so incessantly and amid such discouraging circumstances. The recruits be-

The progress of the suffrage propaganda has been remarkably similar to that of prohibition. The agitation of both these reforms began not far trom the same time. Like prohibition, the banner of equal suffrage has been kept voted for the colonel as a candidate in the breeze through good report and for governor of New York. ensure. Those who believed in it didn't mind the sneers. They preferred to be right rather than president, particularly when there was no hope of being the latter. It was as inevitable as fate that their devotion and fortitude should win admiration and recognition. Prohibition is destined to reach the desired goal first, out suffrage is close upon its heels. No question is ever settled until it is settled right-and suffrage has not

been settled right. There is a fundamental difference, however, between the nature of the ends to be achieved by prohibition and a moral reform. We have been led to destroy the whisky traffic by the well-established fact that it was destroying us. It was corrupting and poisoning the manhood of the country without conferring any compensatory benefits. Suffrage has been agitated and demanded as a right inherent in a democracy. Suffrage is not a favor to be sought or earned, but a rightwhich has been denied-to participate in the government under which one lives and to which one yields allegiance. It is not a question of expediency-whether better or worse for the country-but one of equality before the

And suffrage is coming. And that before very long.

WILL GO RIGHT ON.

In a discussion of election results, under the caption of "The Country is Safe," the Birmingham Ledger refuses o become alarmed over the situation. It has just been figured out that it It does not believe that the election of a few more republicans than was absolutely necessary involves the dissolution or recasting of our war purposes. In concluding the article, the Ledger

> "There need be little or no fear with regard to our part in winding up the war. President Wilson has the present democratic majority to work with until plexion of the house and senate. Amerfor great things irrespective of party. We are simply back to the old stand, and preparing for the accustomed party wrangles on internal affairs which we have had from time immemorial.

And that is about what it amounts to. The die is cast so far as the war Minnesota has developed a situation is concerned. The issues approaching vital to be held up by somebody's petty political ambition. The peace treaty will be eventually threshed out, signed and ratified by the various belligerent countries. This much of the program is in definite prospect. The world will then insist on taking a period of rest and recuperation. It is absolutely

bly return to our former wrangling over political and internal matters. Every 2x4 politician will have his own copyrighted method of reconstruction to urge upon the country-and will visionary but harmless cranks. As urge it. The old tariff fat fryers will insist upon another fling at the wheel now that war profiteering is soon to end. And the colonel will be there to argue that the country will perish in fifteen minutes if it does not remain armed so that no other country will other summer. look cross-eyed at us.

All these things and others will happen because human nature remains very much the same. Men will still seek place and power, and perhaps be gan to investigate. After that, pro-gress was rapid—until it became ir-resistible. Such, in, brief, is an outmade, there will be changes-beneficial changes. We shall none of us-nor the country-be just the same as were before. But we shall forge ahead.

TARIFF AND STEEL

The Louisville Post has the following to say of the United States Steel corporation, variously known as the steel trust, the steal trust, etc.:

"The reduction in dividends by the United States Steel corporation came at the right time. Of course the steel ac the right time. Of course the steel company cannot expect to keep up the large dividends it has paid since the war has been in progress. But the war has secured the future of the company. It has been able to give pany. It has been and to give out of earnings a value to a stock that before the war represented no investment. The stockholders should be cerment. prepare to resist any attempt to keep up swollen dividends for this or any up swollen dividends for this or any other corporation through a high tar-iff."

a willingness to tolerate the big com-

bine if it will be satisfied with ordinary profits-paid largely on waterit will agree to be decent hereafter. be applied to this colossus in a manner similar to that used upon its kin-Harvester company. As we understand it, the suit is still pending in the of domestic questions. Whether pretty behavior would operate to have this withdrawn may fairly be doubted.

The steel trust is rather a cumber some affair at best. The tariff and its size seem to have been its chief protection against competition in the past Otherwise, its waterlogged condition would probably have proved its undoing. If it escapes the courts, it will, of course, join in the cry for more

This recalls that Carnegie once said that with a clean organization and Charley Schwab to run It, he didn't want any tariff. And Truth to tell, Charley has been getting along very

And when progress is sheviki government probably will not unfortunate financial predicament have last much longer. It is to be hoped apparently been taken at face value. Either this or the armistice and peace maneuvers in Europe have absorbed public attention to the exclusion of practically everything else. Thus far, far as noted by this scribe, not a Perhaps the most striking feature single application has been fled for auditor, insurance commissioner, fire prevention commissioner, membership state superintendent, state comfortable situations, and the probably not go begging very long. The old volunteer spirit will reassert applicants to spare.

The organization of the legislature is also and always a matter of interest. The speakerships, clerkships and other positions in the two houses are always eagerly sought after, and this year will probably prove no exception. Several speakership candi dates have heretofore been mentioned, but no recent activity has been obsomething to say in the organization of the legislature, if not also in the filling of the state offices which devolves upon the legislature. It is necessary, in securing efficient administration, that there be close co-operation between the legislature and exbe avoiding it just through our humane consideration of international and also of domestic questions.

of domestic questions. If we followed contain leafur however are followed Roberts-Lansden combination. If this, in truth, existed or does exist, it is quite likely to manifest itself in the governor's appointments and in selection of various state officers the legislature. Developments in these particulars will be watched with considerable interest.

There will be two new members in the next congressional delegation from Tennessee. These are J. Will Taylor, of the Second district, who displaces Congressman R. W. Austin, and Judge Ewin L. Davis, of the Fifth district, who takes the place so long filled by Congressman W. C. Houston. Mr. Taylor is a lawyer of LaFoliette, who has served as mayor of his town, as state insurance commissioner and as chalrman of the republican state committee. Judge Davis has just closed mittee. Judge Davis has just closed a term of efficient service on the cir-cuit bench and has also served on the Middle Tennessee district exemption board. He is universally recognized as a man of scholarship, studious habits and careful deliberation. He is moreover a man of force and ability and his friends are confident that he will distinguish himself in the deliberations of the national house,
